- Conference
- Questions?

- PHEExcel project: Testing the Feasibility of a Quality Label for Professional Higher Education Excellence
- Diverse and complimentary partners
- 4 activities
- 1 outcome

more information on the project at <http://phexcel.eurashe.eu>

Activities

4

- Research
- Develop
- Test & validate
- Propose

Integrating with the world of work?

5

- Not only about internships and employability
- The impact of higher education on industry
- Institutions and subject have specialised in it
- All higher education is concerned with it
- How is it addressed at the moment?

Excellence?

6

- Excellence and not quality
- What is excellence?
- How do we understand it?

Excellence?

7

- Excellence and not quality
- What is excellence?
- How do we understand it?

Excellence is the exceptional capacity of an organisation and its members to add relevant value to input within a given context, surpassing set standards of quality

Excellence?

8

- Excellence and not quality
- What is excellence?
- How do we understand it?

Excelling in this domain [integrating higher education with the world of work] means using in an outstanding manner (taking into account the national and international field) the systematic and circular relationship between education, research and professional practice

Lessons learned & questions

9

- It is difficult (impossible?) to assess excellence with threshold criteria
- The make-up of the visiting team has to reflect the specificity of excellence
- Avoid falling into accreditation modus
- Can a label be awarded in this context?
- Institutions have to invest time for excellence
- Is an evaluation the best format for excellence?
- What would be the added value of just another label?

Is a label for excellence feasible?

10

- Main question of the project
- Response
 - Yes
 - But no

- The PHExcel process for the promotion of excellence in higher education
 - Consultancy, enhancement, support
 - Striving to be excellent
 - 3 stages
 - Team of coaches
 - Excellent practices

www.phexcel.org

- PHEExcel conference
 - Project
 - Excellence
- Excellence in teaching and learning
- Research, development and innovation
- Policies and strategies
- What others think: quality assurance agencies
- How institutions deal with excellence, what they learned with us

Questions?

13

Thank you!
