# OMEGA Intensive Programme

## 6-15 April 2016

- The students took part in an intensive pilot course at Yasar University, Izmir. During this period they worked in a stimulating international environment. They were divided into five “working groups”, each consisting of students from different disciplines and countries. They attended lectures, engaged in practical seminars and carried out individual project work. Through a mix of theoretical knowledge and hands-on experience they learned about the “entrepreneurial mindset” and acquired the basic skills in marketing, promotion, project management, finance and law that are essential to a young artist.
